

Seien-Duftbeutel mit Effektsalz-Technik

Instructions No. 492

Silk is one of the finest materials for clothing, home textiles and textile decorations. With high-quality silk paints and the right techniques it is not difficult to transform the white fabric into decorative unique pieces. The small silk bags are designed with iron-on and Silk paint effect salt, which pulls the colour out of the silk again. This creates a beautiful floral pattern.

And so it goes:

- Wash the scented sachets in clear water, squeeze them in a towel and iron them dry.
- Cover the work surface with foil.
- Large round spots of paint in Pink or Violet apply the paint, then wash the paint with a clean brush with water from the inside to the outside again.
- Fill the free areas signal green and fern green or turquoise and emerald green. The colour areas may overlap and run into each other.
- Paint the ribbons for closing the bags to match.
- Apply crystal salt inside the still wet circles, remove it when Silk paint dry or when the desired effect is achieved
- Use the pink or dark blue Posca pencil to indicate petals around the colour circles
- Tip: Before using the pen for the first time, you must pump the pen. To do this, hold it vertically downwards, remove the protective cap at the end and press the button until the brush tip is completely soaked with paint.
- Fix it with the iron Silk paint at cotton temperature.
