Sew a cherry stone cushion

Instructions No. 3385

Difficulty: Advanced

Working time: 2 Hours

The cozy season has arrived, the days are getting shorter and the weather invites you to make yourself comfortable at home. What could be more fitting than a homemade cherry stone cushion to keep you warm and cozy? In this tutorial, I'll show you how to sew a decorative cherry stone cushion step by step. An ideal project for anyone who is looking for a creative activity on dull days and wants to improve their sewing skills.

Step 1: Design and transfer stencil

Start by drawing a stencil on a sheet of Paper or print out a suitable template. Adjust the size and shape to your taste - for these instructions we are using a simple five-pointed star, which is particularly suitable for beginners. Lay two layers of fabric on top of each other, draw the star shape on the wrong side of the fabric with a pencil and

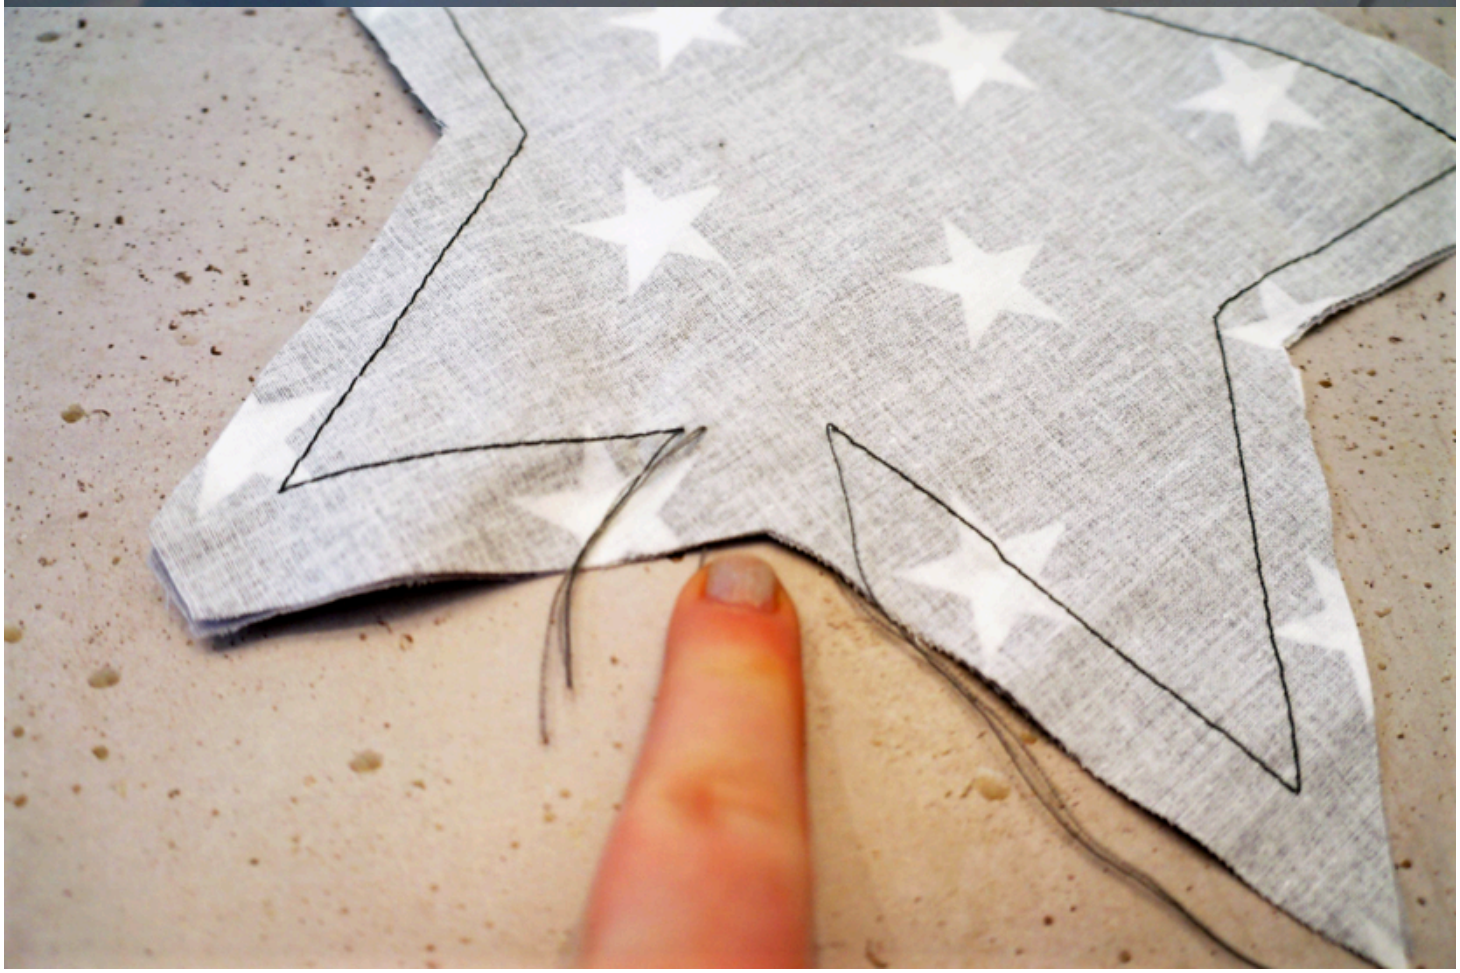

cut it out. Make sure that you leave 1 cm extra fabric next to the drawn line so that you have enough seam allowance later.

Step 2: Sewing with the sewing machine

Place the two cut-out fabric stars on top of each other with the wrong sides together and secure them with pins. Sew the edges with a straight stitch, making sure to leave a small opening through which the cushion can be turned and filled.

Step 3: Stuffing, sewing and decorating

Turn the cushion right side out and fill it with cherry stones. A funnel can help you to fill the stones more easily. As soon as the cushion has reached the desired fullness, sew the opening by hand using a needle. To add a personal touch, you can attach small patches or appliqués with a few stitches.

Step 4: Enjoy the warmth and snuggle up

Place your finished cherry stone cushion in the microwave for a few minutes and enjoy the cozy warmth it provides. Whether as a personal comforter on cold days or as a lovingly homemade gift for family and friends - your cherry stone cushion is sure to bring joy.
