Sewing idea pennant chain Springtime

Instructions No. 2457

Difficulty: Advanced

Working time: 4 Hours

Create your own wellness oasis with a self-sewn pennant chain. The pennants can be sewn quickly using the motif template and labeled with vinyl foil.

Download the motif template and transfer the triangles to the fabrics:

For **solid color fabrics**, transfer the triangles so that together they form a check.
To avoid the motifs of your **motif fabrics** being " upside down" as pennants, cut out each triangle individually with a seam allowance (approx. 1 cm). Sew these fabrics together to form a check.

According to product instructions, coat all pennants with **Odicoat Gel**. This is a stain-resistant gel that protects against UV radiation and also serves as an adhesive.

Arrange the pennants to create a harmonious color scheme. Place the pennant ribbon in the center of the checks and fold them into pennants: **sew** the pennants together with a zig-zag seam.

The letters are each about L 18 x W 14 cm. You can simply print them out on your PC or pre-draw them with a

personal font, then transfer them to the back of the vinyl and cut them out. Remove the protective film and stick the letters on the pennants.
