Snails from clay pots

Instructions No. 2108

Difficulty: Beginner

Working time: 2 Hours

Our cute **snails** are made easy and will delight young and old alike when you tinker and look at them! They can be used as an **interior decoration** as well as a great **decoration in the garden**. With a few clay pots and a few additional materials, you can create a cute little animal. You can determine the size by choosing the pots yourself! How about a pair of snails like in our photo?

Paint the **pots** in your desired colours. The best way to do this is with **handicraft paint** or **outdoor paint**. After drying, glue 5 x 2 small pots together with their openings. These later form the snail shell.

Then glue 2 of the smaller pots bottom to bottom. These are the centre of the snail shell. Now glue the 5 pots together using hot glue around the middle pot.

For the neck, glue one pot to the edge of the snail shell and two more diagonally into it. Paint the wooden ball for the head with your desired colour.

Bend the feelers from winding wire and fix them with hot glue in the hole of the wooden ball. Cut off the tenon from the eyes with a sharp pair of scissors and glue it to the wooden ball with hot glue. Draw nose and mouth with a black permanent marker. Glue the heads in the opening of the last neck-pot.

Must Have

Terracotta pots, Inside-Ø 3 cm, 10 pcs.

Content: 10 pieces
Diameter (outside): 3.6 cm
Height: 3 cm
Material: Terracotta

3,99 €
