Stamp candles for Christmas

Instructions No. 2584

Difficulty: Beginner

Working time: 3 Hours

We all enjoy homemade Christmas gifts. These self-designed candles in decorative gift packaging are just the thing. The candles were designed with stamped tissue paper.

Candles with Christmas motif

Stamp the smooth side of the tissue paper with the silicone stamps.

Cut out the motifs and place them on the surface of the candle.

Now stretch baking paper tightly over the top and carefully heat the candle with an embossing dryer. As soon as you see that the wax is liquefying on the surface, turn off the dryer.

After a short moment, you can carefully peel off the baking paper - the motif has now "sunk" into the top layer of wax.

For the box with lid, transfer the templates and cut to size. Carefully score the fold lines with a cutter so that the fold lines can be folded neatly.

Glue the box together with a little hot glue.

Fix pinwheel foil into the opening of the lid from the inside. The best way to do this is with double-sided tape.

Finally, decorate tags and tie them to the box with a cord.
