Tablecloth weights

Instructions No. 1798

Difficulty: Beginner

Working time: 1 hour

These practical helpers are indispensable for the garden and terrace season! The pretty tablecloth weights prevent your tablecloth from blowing away in outdoor areas. With beautiful silver pendants they are not only only practical, but also an eye-catcher on your balcony or terrace.

Mix approx. 2 **tablespoons of creative casting compound** per house with water **according to the package instructions** and add 5 drops of the **chosen Colour Concentrate** to that. Stir the mixture well with a wooden spatula or similar and then pour the mixture into the moulds. After about **30 minutes** you can already remove the small houses from the mould

Let the little houses dry for **another 30 minutes**. Drill a hole in the top of the roof with a fine **drill**, such as a Proxxon drill. Take a piece of **silver wire** from , form an eyelet with pliers **and glue** it with **Handicraft glue** into the already drilled hole. The **metal clips** are now attached to this. Finally, **decorate** the houses with some sewing thread **and the silver** pendants.
