VBS creative set "Pine cone gnome"

Instructions No. 1989

Difficulty: Beginner

Working time: 2 Hours 30 Minutes

Once upon a time there were **10 little gnomes** waiting to be designed by you, to make themselves comfortable in your home. The little **cone men** prefer to sit **on** the windowsill or the chest of drawers. You can also give away the cute little fellows as a present and give your loved ones such a pleasure. In our set everything is included to create 10 cone elves. You only need hot glue, scissors and one for the Fineliners faces. The finished gnomes measure a size of about 12 cm.

This is how the tenon elves are designed:

First glue the **fir cones** to the birch slices with hot glue

Take the **felt** and cut 3 x 1 cm or 4 x 1 cm strips on the short side for each colour of scarf

Download the **template**. Use the template to cut the caps. Glue the caps together with hot glue at the gluing edge to create cones. Pull the tip of the cap through the eye of a clip. Fold the tip over and glue it with a little hot glue so that the clip is fixed.

Now take the **Wooden balls** out. Paint the faces step by step by sketching them **out** delicately with a pencil, e.g. 2H, and then trace Fineliners them with a 0.1. Later, when it has Fineliners dried, you can also erase over the faces with little only pressure.

Stick the heads onto the pine cones with hot glue. Take the caps and glue them also with a little hot glue on the heads of the gnomes

Finally, tie the **scarf** around the gnomes and cut the ends into small fringes.

Must Have

VBS Handicraft set "Fir cone gnome"

Content: 10 pieces
