Wall decoration with plant pot

Instructions No. 1773

Difficulty: Beginner

Working time: 1 hour

As is well known, the gardening season begins in spring. With this idea you can easily prepare yourself for this season. Because this concrete slab of lightweight concrete with integrated plant pot looks particularly decorative on the wall. Easily copied - and guaranteed to be a highlight on your balcony or in the garden. Simply hang it up, plant your favourite plant and enjoy the beautiful view.

Proceed as follows:

First of all, decorate the edges of the mould with the concrete Art **Liner and** let it dry well. Now mix 20 **tablespoons of lightweight concrete with** water to a creamy mixture. Coat the inside of the mould with a few drops of cooking oil**.** This makes it easier to remove the concrete object from the mould later

Now fill the mould with the mixed casting compound **and press** the **Terracotta Terracotta pot** into the concrete at the desired location. Let everything dry for at least 24 hours. Then remove the resulting concrete plate from the mould. The **remains of the concrete Art Liner** can be removed carefully with a pointed object. The created relief can now be removed with **Handicraft paint** be decorated.

Now carefully drill two holes in the plate with a **concrete drill bit**. Through these two holes you will then make a **Cotton cord** and knotted at each end. To be able to label it Terracotta pot later, simply enter **Board paint** on. As soon as the paint has dried, you can **write** on the board surface with a crayon. The lettering should be changed? No problem at all - just wipe off **the** old lettering with a wet **cloth** and the board surface can be re-labelled again

and again. Finally, the terracotta pot can be planted **and** hung up in your garden.
