Windmills made from outdoor origami paper

Instructions No. 3275

Difficulty: Beginner

Working time: 1 hour

Use this idea for your creative outdoor decorations and make beautiful wind roses with the help of origami folding leaves. These instructions show you how to create decorations and embellish your garden or balcony in just a few simple steps. The idea is easy to understand and quick to implement - perfect for anyone who likes to be creative and enjoys handmade projects.

Crafting with waterproof origami sheets

Take an outdoor origami folding sheet and determine the center of the sheet by drawing a line from one corner to the opposite corner with a sublimate pencil. Do the same with the other two corners. The resulting cross shows you the center.

The sublimate pencil is an ideal pencil for auxiliary lines. This is because it is filled with a ink , which only is visible for a while, but will disappear again later.

Now punch once in the middle of the folded sheet using the smallest attachment of your hole punch. Do the same in each corner of the folded sheet. Always in the left-hand corner directly next to the fold line.

Cut each of the 4 fold lines about 8 cm towards the center of the folded sheet. Make sure that you do not damage the Paper !

Now you can wipe off the paint from the sublimat pen with a cloth without leaving any residue from folded sheet.

Punch out a small and a large flower from the Paper and punch a hole in the middle for each rose you have made.

Making a compass rose

Cut a piece of wire about 25 cm long and double it in the middle. Twist the closed end slightly and thread a wooden bead onto it.

Thread first the small and then the large flower onto the wire. Then gradually pull the corners of the leaflet onto the wire and pass through the hole in the middle of the paper.

Place another wooden bead on the wire. Wrap the rest of the wire around a round stick to finish off your wind roses.

Your unique wind roses are ready to create a special highlight in your outdoor area! Use our online store to buy the materials you need, such as origami folding sheets and craft accessories, and look forward to a fun crafting time!

Must Have

Origami outdoor folding sheets

Length: 20 cm
