Winter scene with wooden plug-in motifs

Instructions No. 3454

Difficulty: Beginner

Working time: 5 Hours

Are you ready to transform your home into an enchanting **winter wonderland**? These instructions show you how to create an atmospheric winter scene using **wooden pegboard motifs**, a pinch of creativity and a few simple materials. Ideal for cold days when you want to enjoy the warmth of your home and unleash your creative potential. Don't hesitate to immerse yourself in the snowy world of handicrafts with us!

Create an enchanted winter scene with wooden plug-in motifs

Step 1: Paint the wooden stick motifs

Start your project by pouring a little of the craft paints onto the painting palette. Dip a brush into the paint and paint the wooden stick motifs to your taste. Let your imagination run wild, whether you choose soft colors for a modern look or bold tones for traditional Christmas spirit. Once you are happy with your work, allow the paint to dry completely before continuing.

Step 2: Create snowy highlights

Once the painted motifs are dry, you can add magical accents with the decorative snow liner. This allows you to give the motifs the look of a fresh snowfall. You can create little puffs of snow on the moose heads or soft patches of snow on the trees. Allow the decorative snow to dry thoroughly to ensure a perfect finish.

Step 3: Create glowing effects

Now it's time to bring some magic into play: Take the LED-chain of light to hand and attach the chain wire behind the fir trees using a hot glue gun. Make sure the lights are well positioned to create a warm glow reminiscent of a cozy winter night.

Step 4: Add sparkling accents

For a touch of sparkle and glamor, you can use some foam sheets-glitter stickers. Place these on your elks and fir trees as desired to give them that certain something. These little shiny highlights will catch the light beautifully and add a festive touch to your scene.

Step 5: Create the snowy landscape

Take the VBS Decorative tray with bark and turn it over. Coat the underside of the tray with decorative snow. Place the wooden stick motifs in the still damp snow to create a snowy surface that binds your entire creation together. Coat the motifs themselves with decorative snow to create a harmonious winter landscape.

Step 6: Attach the battery compartments

Finally, stick the battery compartments to the edge of your decoration with a dab of hot glue. This will keep them neatly hidden and your enchanting winter scene will remain the center of attention. Now let everything dry thoroughly before you put your finished masterpiece in its final place.

Ready to bring winter indoors?

Now that you know how easy it is to create an enchanting winter scene, there's just one more thing missing from only : your personal crafting adventure begins! Visit our online store to find all the materials you need quickly and easily. Let your creativity run wild and design your very own winter wonderland. Happy crafting!
