Winter tea lights

Instructions No. 2138

Difficulty: Beginner

Working time: 20 Minutes

Transform the simple tea light cubes with little effort into an enchanting winter landscape

Modeling - decorating - finished!

You need **VBS Decorative snow** for this idea. This will be delivered to you as white pasty color. First of all, place the tea lights in the recesses provided. Use a spatula to model an uneven snow landscape on the cube surfaces. Protruding snow noses are desired. Take the tea lights out again.

Arrange all **fir trees** **and** **miniature animals** on the individual tealight cubes. The individual pieces are pressed into the still wet snow paste.

As soon as the decorative snow has dried, the tealights can be put back in place. With more fir trees and some

diamond snow you can finally transform the **tealight cubes** into your personal winter landscape.

Must Have

VBS Tealight holder "Cube", 15 pieces

Content: 15 pieces
Depth: 8 cm
Width: 8 cm
Height: 8 cm
